PROJECTS

FullStack Online Food Delivery App – ZestyEats

Live: <https://zestyEats.shivendra.site> | Github: <https://github.com/ShivWK/ZestyEats.git>

React.js | JavaScript | TailwindCSS | Redux Toolkit | React Router | Node.js | Express.js | MongoDB

- Integrated secure **Razorpay payments** for seamless checkout.
- Enhanced performance with **lazy loading & code splitting, shimmer UI, debouncing, and infinite scroll** using Intersection Observer API.
- Implemented **multi-authentication**: OTP (phone/email) and **OAuth 2.0 (OpenID Connect)**.
- Utilized **Geolocation & Google Geocoding API** to fetch live location with latitude & longitude.
- Built Node.js + Express backend to handle app logic (auth, DB, APIs) and serve as a proxy for Swiggy API calls to bypass CORS.

CineAI Video Streaming App with AI Suggestions (Under Development)

Live: <https://zestyEats.shivendra.site> | Github: <https://github.com/ShivWK/ZestyEats.git>

React.js | TypeScript | TailwindCSS | Redux Toolkit | React Router | Firebase

- Integrated secure **Razorpay payments** for seamless checkout.
- Enhanced performance with **lazy loading & code splitting, shimmer UI, debouncing, and infinite scroll** using Intersection Observer API.

Portfolio Website

Live: <https://portfolio.shivendra.site> | Github: <https://github.com/ShivWK/portfolio.git>

React.js | CSS3 | JavaScript | TailwindCSS | React Router | HTML Canvas | Framer Motion

- Designed and developed a personal portfolio with responsive design and interactive UI.
- Integrated GitHub streaks API and LinkedIn content carousel to showcase work.
- Implemented custom background animations using CSS3 and HTML canvas API for a unique feel.

SKILLS

- **Frontend:** React.js, React Router, Redux Toolkit, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Framer Motion, Material UI.
- **Backend (Basics):** Node.js, Express.js, REST APIs, MongoDB, Firebase.
- **Authentication:** JWT, OAuth 2.0 (OpenID Connect), Firebase Auth.
- **Data Fetching and APIs:** Axios, Fetch API, RTK Query.
- **AI-Powered Tools:** ChatGPT, GitHub Copilot, Cursor AI (for productivity in dev workflows).
- **Core:** Java, OOP.
- **Currently Learning:** Advanced Backend Development, Data Structures & Algorithms (DSA), Next.js.

EDUCATION

Bachelor of Computer Applications (BCA) | University of Allahabad | SEP 2021 – JUN 2024

CGPA: 7.53 / 10 | Grade A
